DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-3 drawn to An apparatus for dispensing plastic bags, classified in class 221, subclass 63.
 - II. Claims 4-9 drawn to a method for making a clip of plastic bags for use in a dispenser, classified in class 221 subclass 49.
2. Inventions I, and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as dispensing envelopes. See MPEP § 806.05(d). In the instant case, invention II has separate utility such as folding and bundling clothing.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. No claims appear to be linking claims.
